🪪 Profile

I am a recent graduate with a strong foundation in frontend technologies such as HTML, CSS, and JavaScript, as well as backend development using Java and Python, and database management skills in SQL. I am proficient in key development tools, including Figma, GitHub, VS Code, and Eclipse. I am currently gaining practical experience through an ongoing internship at KodNest Pvt Ltd, where I actively contribute to Full Stack development projects. I am eager to leverage my skills, drive, and internship experience to make a meaningful impact in a dynamic and collaborative work environment.

💼 Professional Experience

Full Stack Developer Internship   Jun 2023 – present | Bangalore, India
KodNest Pvt Ltd
Role and Responsibilities:
- Actively participating in a Java Full Stack Developer internship program.
- Receiving training in a wide spectrum of technologies, including HTML, CSS, JavaScript, SQL, Java, Python, and React.
- Gaining practical knowledge in both front-end (HTML, CSS, JavaScript) and back-end (Java, Python, SQL) web development.
- Contributing to real-world projects and collaborating with experienced developers and mentors.

📂 Projects

Portfolio Website Development   May 2023 – Sep 2023
Project Description:
Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and accomplishments as a web developer.
- **Conceptualization and Design:** Created a visually appealing and user-friendly website design that effectively represents my skills and personality. I have utilized modern web design principles to ensure an engaging user experience.
- **Front-End Development:** Wrote clean and well-structured HTML and CSS to build the website's front end. Ensured the responsive design accommodates various screen sizes, from mobile devices to desktops.
- **Interactive Features:** Integrated JavaScript to enhance the website's interactivity, including smooth scrolling, interactive navigation, and dynamic content loading to make the website more engaging.

Technologies Used: HTML, CSS, JavaScript.   **ToolsUsed:** Figma, Visual Studio Code, GitHub
